CD PDF Format

Making, Tools and Techniques, with Color Images and
More Tooling and 17 New Pages

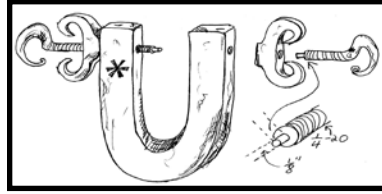

By Gene Chap-

Antler and Iron II CD

Step by step Instructions, 17 additional pages, 57 in all, and many new color images.

Antler Drilling Fix-

Slotting Fixtures

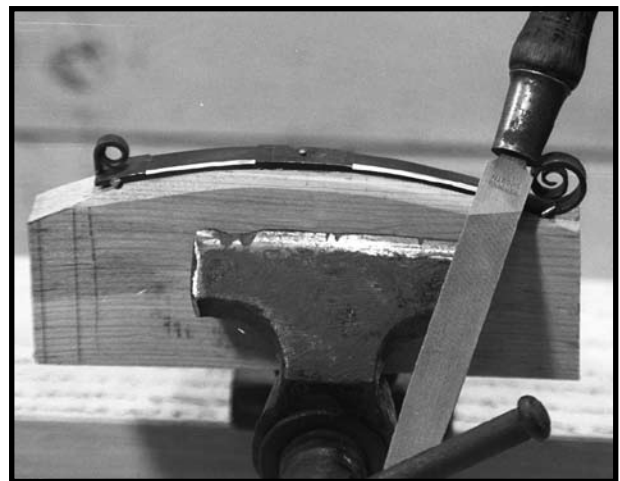

Slotting Saws

Slotting the

Pattern Blades

Filework

Additional tooling and building methods not available when the original "Antler and Iron II" was published in 1995 are added. Color photos will replace black white ones when the tool or process can be recreated. The original film negatives were professionally scanned and I retouched the images in Photoshop.
